Look at the detail below and find this sculpture in the Heineman Contemporary Glass Gallery. This piece inspires different feelings and ideas. What does it look like to you? What did the artist name it?

Winter Wonders Detective’s Challenge
How many “points” does this object have?
Families enjoy winter in different ways. Some like to sing songs, give and receive gifts, eat special foods, and play in the snow. Many also decorate their homes with holly, stars, and candles to help them feel warm and cozy.

As you explore our galleries talk with your group about what you and your family and friends like to do during the winter.

DIRECTIONS:
As you go through the galleries, you’ll see many objects that remind you of the winter season.

LOOK for objects shaped like the ones on the map. When you think you’ve found a match, look closely at the details and see if you have a match by comparing what you found to the images below.

If you’re looking for an extra CHALLENGE fold up the bottom of this sheet and look for the objects using just the shapes on the map.
